

More than **20,000 users** trust in  
**SevenCs technology**

SevenCs is a company with about 120 employees, developing high-end software products for cartography and navigation in professional shipping. Our software components have an excellent reputation throughout the maritime world.

We would like to expand our team in Hamburg and offer student jobs or full-time positions after graduation.

## Marine Quality Assurance Engineer (m/f)

### Your Tasks:

- Testing newly developed nautical software and devices
- Creating reports and summaries
- Creating test frames
- Evaluating data on test ships based in Warnemünde and Hamburg
- Participation in product development meetings

### Your Qualification:

- High affinity to IT
- Software experience in MS Office, iOS and Android (or equivalent)
- German and English fluently in speech and writing
- An independent way of working and a hands-on mentality
- Safe, friendly, balanced and well-groomed appearance

### Our Offer:

We are offering a highly interesting job with above-average salary. You will get a detailed and individual training with us. We also offer flexible working hours and modern offices in one of the most attractive locations of the city. Become a member of a highly motivated team in an environment that promotes wealth of ideas and rewards initiative and dedication.

If we caught your interest, please send your application including salary expectations and earliest possible start date to:
