**SevenCs technology**

SevenCs is a medium-size company with about 120 employees, developing high-end software products for cartography and navigation in professional shipping. Our software components have an excellent reputation around the maritime world.

We would like to strengthen our software development team in **Hamburg** and are looking for a

## Software Developer (m/f) for C++

### Your field of activity:

As a software developer, you are responsible for maintaining and developing existing applications as well as designing and developing new application in C/C++. Everything revolves around navigation and electronic nautical charts.

### Your profile:

- Successfully completed an education or relevant studies in information technology (University, Polytechnic)
- Sound knowledge of software development with C++
- Knowledge of Qt and C#
- Knowledge of computer graphics (e.g. Cairo, OpenGL)
- Knowledge of the operating systems Windows and Linux
- Interest in shipping and navigation
- Ability to work autonomously and self-reliant
- Good English language skills spoken and in writing

### Our Offer:

We offer a fixed contract with a varied and interesting activity with above-average payment. You get a detailed and individual training with us. We also offer flexible working hours and modern offices in one of the most attractive locations of the city. Become part of a highly motivated team in an environment that promotes wealth of ideas and reward initiative and dedication.

If we caught your interest, please send your application including salary expectations and earliest start date to:
